| Big game adult males, 2 1/2 years or older | - 150% of base value |
| Females and males less than 2 1/2 years | - 100% of base value |

*Average size, age, and condition will be determined by investigator.

- ** (1) Species that breed once a year - an obvious young of the year animal killed before September first.
- (2) Species that breed more than once a year - an obvious young of the year animal at time of death.
